

## Lunch seminar La Sapienza - NTTData

# NTT DATA

## Global IT Innovator

### Why Flutter Works

Register for the following seminar about: **Flutter**

**Friday, November 6th 2020** – from 3:00 to 4:00 PM

**NTTData: Why Flutter Works**

**Description:**

After a year of Flutter, and 6 apps released on the stores, we will share our experience and the elements that make Flutter unique.

We will talk about Flutter's pros and cons; when we suggest using it and when it might not be a good choice too.

**Registrations are open!**

The seminar will be held online on ZOOM

It's free but places are limited, please register: [HERE](#)

JOIN THE SEMINAR: [Here](#)

The goal of the [ITMeeting Lunch Seminars](#) is to show to students the approach to the design and solution of IT related problems by different companies. Thus, the seminar will describe a technological topic and all its implications (no company overview presentation, which have their space twice a year in the main ITMeeting event).

Expected audience are students of the following university programs:

- Informatica (triennale)
- Master in Computer Science
- Master in Data Science
- Master in Cyber Security
